

Cap pelen Dimyr

chapter 01

Our Story

Cappelen Dimyr is a creative collective based in Copenhagen and Malmö. The brand was founded in 2018, with the aim to offer a quiet yet contemporary and luxe line of handmade rugs with the unique design dna: conscious, crafted and personal. Cappelen Dimyr rugs are sold exclusively at www.cappelendimyr.com and through selected wholesale partners around the world.

Our Philosophy

The Cappelen Dimyr journey started in India, where the meeting between the local people's knowledge and craftsmanship and the unique Cappelen Dimyr design created the foundation of the brand.

We place sustainability as a core pillar in everything we do and our approach is to think holistically about our items and that each manufacturing process respects people and the planet. We work solely with natural fibers and unbleached qualities and define luxury by merging nature's best materials with our design. Our factories are certified by Good Weave Certification and The Certification of Care & Fair.

Our Design

Our rugs are designed with the modern bohem in focus. Colors are natural and carefully curated together with the finest qualities that together creates an organic imperfection. We strive to create a contemporary cosiness and want our rugs to be the starting element of a personal and conscious home. We find inspiration in the natural elements and crafts from all over the world. The identity of the Cappelen Dimyr design is a cross between the 'quietude' evoked by the natural materials of classic Scandinavian design and a sophisticated bohemian look.

Chapter 01

The first Chapter of 6 different rugs, all represents the signature world of Cappelen Dimyr where eclectic, soft, bohemian and contemporary mixes into a modern curation. Lush, dimensional, signature high pile rugs merge the techniques of hand-knotting and hand-weaving. Soft neutrals of beiges, browns and off-whites are in the core of the collection and together with the creative yet soft patterns they create the iconic esthetics of Cappelen Dimyr.
